SPECIAL OFFER

FOR THE FIRST TIME EVER! An Entirely New Bigeneric Hybrid

DORITINOPSIS DORETTE

This new departure in Phalaenopsis breeding is the result of crossing the lovely pink Phalaenopsis Rothomago with the charming little (but ever-blooming) Doritis pulcherrima which is sometimes erroneously called Phalaenopsis Esmeralda. The resulting new bigeneric genus has just been named Doritinopsis and this hybrid, Dorette, is the first to be produced in sufficient quantity to advertise and sell. Up to now, these have been such rare collector's items, they have never reached the market.

Dorette is a very happy medium between the two parents. From the Phalaenopsis parent comes plant size, flower size, flower shape & color; from the Doritis parent comes plant vigor & strength, an erect bloom stem & an ever-blooming habit and intensified color. Each parent has given its best. The result is wonderful. A whole new departure in Phalaenopsis breeding with an extended blooming season, a new type of stem habit, a slightly different shape and rich new colors, ranging from lavender-pink to rose purple.

We have a limited supply of these plants available now. They won't last long so order soon! These are mature young plants, ready to start blooming any day now, but they are unflowered as yet and therefore unselected. You have a good chance of getting one of the finest.

4-5" pots, 5-7 leaves,
10 to 12" across, only \$14.98
f.o.b. Homestead, Fla.

ORCHID SUPPLIES

OSMUNDA: Enough for 2-3 - 6" pots, postpaid 2.00
Enough for 5-6 - 6" pots, postpaid 3.50
Bales (50 or 60 - 6" pots) f.o.b. Homestead 14.00

JUNIOR REPOTTING KIT Includes osmunda for 2-3 - 6" pots, labels, potting stick & repotting folder. Complete, postpaid 3.50

SENIOR REPOTTING KIT as above, but includes osmunda for 5-6 - 6" pots & more labels. Complete, postpaid 5.00

PINE BARK
FINE for communities & seedlings up to 2 1/2" pots, also for Cypripediums.
MEDIUM for general potting of most kinds of orchids in 3-5" pots.
COARSE for larger pots, 6" & up, for Vandas & Phalaenopsis in all pot sizes above 3 inches.
Instruction sheets-POTTING & DIVIDING for Osmunda & Bark, \$.25

HOBBY BOX enough bark for 7-10 - 5 or 6" pots

1 CU. FT. enough bark for 20-30 - 5 or 6" pots
2 CU. FT. enough bark for 40-60 - 5 or 6" pots

JR. BARK POTTING KIT. Includes enough pine bark for 9-12 - 5-6" pots, plus 6 clip-on orchid stakes and 12 orchid pot clips with complete instruction sheet for potting orchids in bark.

SR. BARK POTTING KIT. Includes enough pine bark for 20-30 - 5-6" pots plus 15 clip-on orchid stakes & 30 pot-clips plus a complete instruction sheet for potting orchids in bark. (Instruction sheets for both Jr. & Sr. potting kits contain drawings for complete instructions.)

NEW CLIP-ON ORCHID STAKES. A new design, much neater looking and easier to use, also holds the pot more firmly & gives a steadier support for the plant.

1 doz. postpaid \$ 2.49
25 postpaid 4.79
100 postpaid 16.95

CLIP-ON RING STAKES. These stakes clip onto the side of the pot and give strong & steady support to the plants. Size & height of ring are adjustable. Almost indispensable for potting in the new barks.

10 postpaid \$ 2.49
25 postpaid 4.98

NEW ORCHID POT CLIPS. This ingenious little gadget solves the one major nuisance in bark potting. It keeps the bottom of the plant steady until new roots get established. The pot-clip clips onto the side of the pot and a prong reaches out across the rhizome to hold the plant down firmly into the bark. We often use 2 on a plant. Get some and try them.

1 doz. postpaid \$ 1.25
25 postpaid 1.98
100 postpaid 6.95

CLIP-ON POT HANGERS. A new design with a strong spring grip and a longer hook than previously available (20" high)

10 postpaid \$ 2.49
25 postpaid 4.98

DOUBLE CLIP-ON POT HANGERS. The same new design as above but double with clips on both ends for hanging the larger and heavier pots. Keeps even the heaviest pot hanging evenly.

10 postpaid \$ 4.49
25 postpaid 8.98

FENORCO HYDROPONIC PLANT FOOD. The best known & most widely used orchid fertilizer. Used successfully by thousands of flower growers around the world.

1 pound, postpaid \$ 1.75
5 pounds, postpaid 5.50
10 pounds, postpaid 9.00

FENNELL'S AMMONIUM NITRATE FOR ORCHIDS IN BARK. The best & easiest source of extra nitrogen necessary for feeding orchids that are planted in the new barks.

1 lb. postpaid \$ 1.00
5 lb. postpaid 3.75
10 lb. postpaid 4.98

"NEW IMPROVED" FENORCO PLANT SPRAY
"New Improved Fenorco Plant Spray" - the only all-purpose insecticide that is especially formulated for orchids, and best of all, it's one of the safest for you to use, too! You should spray regularly on a monthly schedule with our "New Improved Fenorco". This will keep your plants insect free all the time!

"New Improved Fenorco" controls all orchid pests; insects, mites, slugs & snails. It is a concentrate that dilutes 1 part to 36 parts of water and it has a residual action of 4-6 weeks. If you haven't tried it already, you should now! You'll find it's a wonderful convenience. This one spray replaces the whole shelf full you've been using and you do the whole job of spraying at one time as well. Order yours today.

Pints, \$4.00 Quarts, \$6.50 Gallons, \$18.50 Postpaid

LABELS
Stake Type - heavy, white plastic, 1/2 x 4", with wet-proof pencil included. Per 50 postpaid \$1.00
Slip-on Type (no wires required), cream plastic, includes wet-proof pencil, cellophane bag. Postpaid \$1.25

A Book Every Orchid Lover Should Have

A really good beginner's book on orchids that you've been asking for so long! ORCHIDS FOR HOME AND GARDEN by T. A. Fennell, Jr. is a real primer. You don't have to know anything about orchids, or other plants, to learn from this book - it starts from scratch and uses simple, clear English with no fancy technical terms. Whenever "new" words are used they are explained right there in the text.

ORCHIDS FOR HOME AND GARDEN is the first orchid book giving you really simple instructions for growing orchids at home - it is also the first that covers the use of orchids as garden plants in the tropics and sub-tropics. There are chapters on all phases of orchid culture; starting your collection and how to buy orchids, orchids that you can grow, raising orchids from seed, making your own arrangements and corsages, landscaping your garden, lath-houses and greenhouses, etc.

ORCHIDS FOR HOME AND GARDEN is profusely illustrated with drawings by the author and with eight pages of color and eight pages of black and white photographs. Altogether we feel it is the most informative and worthwhile book for the beginner ever published.

This newly revised edition is now available at \$3.95 postpaid

COLLECTOR'S ITEMS - "POT THEM YOURSELF" SPECIALS

SUMMER SALE

DON'T MISS THESE WONDERFUL
BARGAINS
BUY NOW AND SAVE

"POT THEM YOURSELF" SPECIALS

MATURE FRONT DIVISIONS

Six fascinating orchids of spray & cluster types from medium to large sized flowers, in a wide range of colors. These are divisions of fully mature plants or seedlings large enough to bloom within the year. Each is packed, bare root, in a "Pot-'em-Yourself" kit for you to pot & grow on. Kit includes: bark, pot clips, clip-on stake & instructions - everything you need except the pot!

PRICES ARE SPECIAL, LOW SUMMER SALE PRICES good until September 30th only, f.o.b. Homestead, Fla. Also please note the Special "Pot-'em-Yourself" Collection at the bottom of the column. It's a particularly wonderful bargain! If you buy one of each of these six fine plants we will give you, absolutely free, an extra bonus plant of the lovely, fragrant, "elephant orchid", Aerides Odoratum, and on this Special Collection we also pay the Postage - a considerable saving to you!

POT-'EM-YOURSELF KITS

MATURE PLANTS

BRASSAVOLA CORDATA

Charming clusters of pale green and white flowers, each about 2 1/2" in dia. Make lacy bouquets against dark blue green foliage of this easy to grow botanical from Jamaica. Leaves tall & slender, terete or almost round in cross-section. Plants nice & strong. Fragrant at night. 5-9.98 ea.

C. PITTIANA (C. Dowiana x C. granulosa)

Charming and Distinctive. Form & color are different & fascinating. Lip is spade-shaped, not tubular. Colors range thru all shades of yellow, bronze & brown to deep mahogany, with crimson lip. Substance is remarkable, bloom 2 to 8 per stem, 4 1/2-6". Summer & fall. Plants naturally tall and slender, bifoliate leaves, somewhat twisted & ribbed. 19.98 ea.

DENDROBIUM NOBILE

"The Pansy Orchid". One of the loveliest & most popular of all the spray & cluster type orchids. These are ready and willing growers. The plants are beautiful & sturdy. They flower heavily in the late winter & early spring if dried off well or chilled during the fall months. They must have this shock to "set" the buds. (See our 1960-61 catalog for cultural details, page 10). Flowers are 2 1/2-3" across, 2 to 5 on a stem, stems at every node along top half or 2/3 of bulb-can. Usually bloom on last year's growth. 3" pots - large plants, blooming size 9.98 ea.

LC. KENCOLOR (Lc. Kenosha x C. Bicolor)

DON'T MISS THIS ONE If you like the bifoliate cluster types with cut lip. Flowers open chartreuse, then gradually develop to very unusual clear shades of pink; some reach bright lipstick pink & rose tones. About one third stay clear chartreuse or green. One of longest lasting cattleyas we know. Lips are rose or lilac color, 4-5" flowers, up to 10 on a stem. Plants naturally tall and slender. 14.98 ea.

SCHOMBURGKIA UNDULATA

S&Ps rich golden-brown. Lip rose-lavender. S&Ps very undulant and also twist & curve gracefully inward toward the ends. Very exotic; of unusual beauty. Always causes excitement when shown. From Panama & So. America. 7.98 ea.

UNLABELLED VANDA HYBRIDS

Plants from our regular stock of the finest new hybrids. Mostly Sanderiana stock from which the labels have been lost. These are strong & sturdy plants. A terrific value, priced to move! 5-6" pots - blooming size but as yet unbloomed 7.98 ea.

BONUS PLANT

AERIDES ODORATUM

Most popular of group. Long drooping bloom stems. Many 1 1/2" flowers. Cream tipped with magenta. Shape of elephant head. Very fragrant. Spring. India and China.

POT-'EM-YOURSELF SPECIAL COLLECTION

If you order the six plants listed above, at one time, we will send them to you prepaid and, as an extra special bonus, we will include a FREE BONUS PLANT of Aerides Odoratum, large enough to bloom next spring or summer. Order yours today! You get 7 fine plants for less than the price of six, and they come to you Prepaid for only \$59.95

SEEDLING SALE SPECIALS

POT-'EM-YOURSELF KITS

Twelve really fine & unusual new hybrids of high potential. These are all new - we've never advertised them before & since they're available in limited quantities only, they'll never be advertised again! These are rare crosses. Every one is worthy of your consideration. Every one will make a valuable addition to any collection. Order early before they sell out. First come, first served.

If you order one of each in any one of the Summer Sale Seedling Collections below, in addition to the Special

Collection price, we will include an extremely rare new hybrid Epi-Cattleya as a SPECIAL GIFT for you. This one is so rare you can't buy it but we'll send you one absolutely free with each order of the whole group. Order in any size collection you choose. We'll include the bonus in a corresponding size.

Kits include bark for potting, and complete instructions, as well as the strong young plants, which are shipped bare-root in a plastic bag to keep them from drying out. These seedling kit prices are postpaid.

\$10.00 -- MINIMUM ORDER -- \$10.00

C. DOWIANA X (BLC. DOROTHY FENNEL X C. LEDA ALBA)

We expect yellows & rich bronzes or reds of the very finest size, shape & substance from this new hybrid. An usually fine, clear golden yellow Dowiana was mated with our fine, large cream colored Blc. which is just about perfect in shape, substance & texture. The yellow background of this parent, too, almost assures fine yellow progeny. 2-2 1/2" tall \$2.79 ea. 3-4" tall 3.98 ea.

C. LAURIE LYNN WESTENBERGER

(C. Clarisiana x C. Bob Betts). This is a remake of the extremely popular pure white cluster-cattleya that has been making such a wonderful name for itself in the last two years. Parents of exceptional beauty were carefully picked to make this batch even better than the original cross, if possible. These seedlings are sturdy & vigorous. Only a very few available. While they last, 2-2 1/2" tall \$2.49 ea. 3-4" tall 3.49 ea. 4 1/2-5" tall 4.49 ea.

POTINARA DOROTHY L. ADAIR

(SLC. Comuse x C. Dowiana) x B. Digbyana. Some of these have already bloomed and they're terrific. 5-6" flowers on small plants, of good substance, very well held, surprisingly good shape with a large frilly lip & no two have been the same color, but all have been unusual & interesting colors in the yellow, orange, reddish, plum & wine shades, often with fascinating feather patterns of veination in a color contrasting with the background color. Very heavy, stout, young plants. 2-2 1/2" tall \$1.98 ea. 3-4" tall 2.98 ea. 5-6" tall 3.98 ea.

(C. ZOE X C. BALLANTINEANA) X C. GUTTATA, EXTRA DARK

A bifoliate cluster-type of unusual promise. A fine, large, dark purple cattleya, crossed with an extremely dark, large & well shaped guttata. One of the best we've ever seen. These should be heavy, glossy flowers, 4 1/2 to 5" across, 6 to 10 on a stem, in colors ranging from deep crimson-purple to plum-red & exciting wine-red shades. 2-2 1/2" tall \$1.79 ea. 3-4" tall 2.79 ea. 4 1/2-5" tall 3.79 ea.

C. HYBRIDA X C. GRANULOSA

This interesting cross will produce 3 1/2-5" flowers in large bouquets, 8 to 14 on a stem, of exceptional lasting qualities and a glossy texture. The color should range widely from chartreuse or yellowish-pinks thru apricot & salmon tones to coppery tints, bronzes & dark purplish reds. We're looking forward to blooming these as we expect many delightful surprises. 1 1/2-2" tall \$1.79 ea. 2 1/2-3" tall 2.79 ea.

C. IRIS X C. GUTTATA

A BRONZE BEAUTY is our prediction for this fine bifoliate hybrid. Both parents are cluster types. Flowers should be very heavy, waxy & long lasting; 8-14 on a stem each about 4" across, in rich, glowing shades of golden brown, bronze and rust-red to mahogany. These are fast growing seedlings. A joy to watch. 2-2 1/2" tall \$1.79 ea. 3-4" tall 2.79 ea.

LC. MARY NOBLE X BLC. MARION RYERSON 'DARK ANGEL'

This should produce large, winter blooming dark purples of exceptional quality. Both parents are outstanding flowers & their wonderfully vigorous growth habits promise well for the cross. May bloom twice a year. 2-2 1/2" tall \$1.98 ea. 3-4" tall 2.98 ea. 5-6" tall 3.98 ea.

C. EMPRESS FREDERICK X LC. WARHAWK

These should be good! Two of our darkest & most vivid crimson-purple. Both are vigorous & floriferous. Both are smallish, compact growers. The progeny should bloom predominantly spring, but probably will bloom most any time & several times a year when full grown. Nice small plants of vigorous growing habit. 1 1/2-2" tall \$1.79 ea. 2 1/2-3" tall 2.79 ea.

BLC. MARION RYERSON X C. AMETHYSTOGLOSSA

An extremely showy, large, dark, round & heavy Blc. crossed here with the very fine, selected, polka-dotted Amethystoglossa should give medium sized cluster-cattleyas of exceptional substance and lasting qualities with a very waxy & glossy sheen. Colors will certainly be dark and bright. Some may be wine colored. 2-2 1/2" tall \$2.49 ea. 3-4" tall - much heavier plants 3.79 ea.

BRASSAVOLA DAVID SANDER

(B. Digbyana x B. cucullata). This is a remake of the extremely rare old English hybrid of which only 3 plants are known to exist today. Produces 4 1/2 to 6" flowers of lovely, well held star-shape with a long & pointed, very frilly lip. From pure white to creamy white. One of the most unusual & exotic flowers you'll ever see. Plants are tall, slender and very vigorous. 2 1/2-3" tall \$1.98 ea. 4-5" tall 2.98 ea. 6-7" tall 3.98 ea.

ONCIDIUM CARTHAGINENSE X ONC. SPLENDIDUM

An unusual and very interesting hybrid worthy of note! Those that have bloomed have been on the greenish side, some spotted and marked with darker green, others with reddish-purple markings. Produces many flowers of intermediate size in the late winter and spring. A fine new type of Oncidium that will make its name among this very popular group of orchids. 2 1/2-3" tall \$2.49 ea. 4-5" tall 3.98 ea.

RENANTHERA BROOKIE CHANDLER

(R. Storeii x R. Mona Chica). This famous hybrid is the best of all Renantheras, producing large branched sprays of many 3 inch, blood-red flowers on a compact and short sturdy plant. This one does well under normal cattleya growing conditions and does not need full sun to bloom. A rare and fine collector's orchid. 2" high - 3" across \$2.79 ea. 3" high - 4 1/2" across 3.98 ea.

SUMMER SALE SEEDLING COLLECTIONS

#1. One each of the twelve crosses listed above, small sizes, a total value of \$ 26.15 for the Special Sale price of only \$ 22.95 Postpaid
#2. One each of the large sizes, a total value of \$44.32 for the Special Sale Price of only \$ 37.95 Postpaid

Both Collections include the Free Gift Plant, Epidendrum Marieae x C. intermedia. Another of the very rare & much sought after new bigeneric hybrids using the rare Epid. Marieae as a parent. The large trumpet lip and greenish color of S&Ps have proven quite dominant in previous crosses. The vigor and blooming habit of the intermedia should combine with this to make a very interesting new hybrid. A rare and desirable collector's item.

2-2 1/2" tall, for collection #1
3-4" tall, for collection #2

AERIDES QUINQUIVULNERUM

A very handsome species like Odoratum but larger bloom stems and slightly more colorful flowers. Philippines. Fragrant. Summer. 4 1/2-5" pots - small mature \$7.98 ea.

C. SKINNERII 'AUTUMNALIS'

Also known as C. Deckerii, a fall blooming form of the ever popular Skinnerii. Has larger, flatter, heavier and better held flowers than spring blooming form. Lip opens fully & flowers last well. Grows like a weed & will make tremendous, very showy specimens, quickly & easily. 4 1/2-5" pots, newly established, in sheath, 1 lead \$7.98 ea.

EPIDENDRUM FRAGRANS

Very fragrant. Greenish white flowers with pointed S&Ps, red striped lip, carried in tight cluster on erect stem. Grows like a weed. Branches freely & makes large decorative specimen plants quickly. Jamaica. 4" pots, newly collected, 1 lead \$4.98 ea.

LAELIA ANCEPS

Flowers star-shaped, very crisp & attractive. 3-6 on long arching stem. Plants: newly collected, rough looking but rooting well. 4" pots, many now in spike \$5.98 ea.

VANDA LAMELLATA 'BOXALLII'

One of the most attractive of the small flowered species. Yellow or cream with dark rusty-red blotches on inside of lower sepals. Very floriferous. 4 1/2-5" pots, small mature \$7.98 ea.

SUMMER SALE BOTANICAL COLLECTION

One each of the showy botanicals listed above. Five really attractive spray & cluster orchids. A total value of \$34.90 for the SPECIAL COLLECTION PRICE of only \$29.95 ea.

F.O.B. Homestead, Fla.

CHEAPER-BY-THE-DOZEN SPECIAL

Order 12 of these, of one cross or mixed, and deduct 10% from the total as a Summer Sale Discount. A dozen of each (48 plants) wouldn't be too many for any collection, and we'll give you a 20% discount, if you order them this way, but order soon please, before we're sold out!
